josiahdeleon.x@outlook.com | (917) 724-5383 | [LinkedIn](#) | [GitHub](#) | New York, NY

EDUCATION

City College of New York

Bachelor of Science in Computer Science

Relevant Coursework: OOP, Linear Algebra, Calculus

Affiliations: Break Through Tech, CodePath, ACM club

Expected Winter, 2028

GPA: 3.55

Borough of Manhattan Community College – NY

Associate of Science in Computer Science

Relevant Coursework: Data Structures, Introduction to Computation, Database Systems

Awards: Dean's List (Spring 24, Fall 24), Sigma Alpha Pi Honor Society

December 2025

Certifications

Cornell University, online certificate in Machine Learning Foundations

August 2026

CodePath – Applied AI Engineering (Honors), **CompTIA A+** – Core 1/Core 2

May 2026

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL

Libraries/Frameworks: Pandas, NumPy, Scikit-learn, Open-CV, Matplotlib, Seaborn, Streamlit

Tools & Platforms: Git, GitHub, AWS, Google Cloud, MySQL, Claude Code, Linux

PROFESSIONAL EXPERIENCE

Per Scholas

January 2026 – April 2026

IT Support Apprentice

Bronx, NY

- Performed hardware diagnostics, OS installations, and device configuration on desktops and laptops in real and simulated environments.
- Managed and resolved mock ServiceNow tickets following ITSM best practices for incident and request fulfillment.
- Configured network devices and peripherals including routers, printers, and switches across LAN/WAN environments.

PROJECTS

OpenFM | Python

May 2026

GitHub: <https://github.com/jkalpha/OpenFM-agent#readme>

- Architected an agentic music recommender using Claude's tool-use API and RAG (Tavily + Spotify) to ground LLM reasoning in real-time data.
- Built a hybrid recommendation engine combining Gaussian similarity scoring with LLM evaluation, backed by guardrails and an automated test/eval suite.
